About Me

Beyond the skills I've gained through my studies and professional experience, I have a strong passion for self-learning.

On my own, I've developed a range of creative and technical abilities, including:

- Blender
- Premiere
- After Effects
- and music production with Ableton and FL Studio.

In the programming field, I've also taught myself technologies such as:

- React, React Native, React Fiber
- Capacitor
- Node
- WebGL
